Hello Ray:

I did not catch this one sooner. It is my understanding that we are going to Austin on Friday, November 14th for the meeting on AE, a one day trip. If this is not the case, I will appreciate your providing details. Thanks,

JETorres

Subject Fw: Proposed Meeting

Phil Jose - give me all of your dates available in the first 2 weeks of November. We'll go with the first available date that is confirmed with Ben. Thanks

Subject Re: Proposed Meeting

Ray:

What is y'all's preference for travel dates? After November 3 when our response to comments are due on the proposed uranium rule revisions, The first two full weeks of November look generally open for UIC staff. Of the UIC staff, the ones dealing directly with uranium and aquifer exemptions are David Murry, Mary Ann Ryan, and Fred Duffy. They will be generally available during those weeks. We also need Don Redmond because of his experience with us on uranium/aquifer exemption cases including contested hearings. As soon as I get a response from Don on his availability, I'll let you know.

-Ben

Ben,

Our contingent of team members coming to the exemption meeting has shrunk. Its now Phil, Jose, and myself. Phil envisions the meeting to be more along the lines of a conceptual discussion on our approach to delineate exemption boundaries than I had first envisioned. This reduction in attendance should help expedite the ability of the group to get together. Let me know your thoughts. Thanks.
